

# **Capability Statement**

BeddingUS is a leading manufacturer and distributor of various types of mattresses and bedding products. The company also offers third-party logistics services for furniture and bedding companies.

# **CAPABILITIES & PRODUCTS**

#### Manufacturing

BeddingUS is equipped with state-of-the-art machinery, enabling the production of a wide range of mattresses including:

- · Innerspring Mattresses
- Foam Mattresses and Memory Foam Mattresses
- Mattress-in-a-Box Products (foam, memory foam, and hybrid mattresses)
- · Mattress Pads and Mattress Toppers.

The daily production capacity of BeddingUS varies between 200 to 1,000 pcs per day depending on the size and model of the mattress.

#### **Import & Distribution**

Apart from manufacturing, the company imports and distributes other bedding products such as Bed Foundations, Headboards and Bunk Beds.

#### **Warehouse & Logistics**

BeddingUS has a warehouse to store, pick up, and deliver all types of mattresses, bedding, and furniture products. The company offers value-added third-party logistics services for furniture and bedding companies.

# **LOCATION & FACILITIES**

### Location

BeddingUS is conveniently situated in Fort Lauderdale, between Interstate 95 and Florida's Turnpike. This strategic location provides easy access to Port Miami and Port Everglades, as well as to Miami International and Fort Lauderdale Airports.

### **Primary Facility & Warehouse**

The primary facility covers an area of 60,000 square feet, accompanied by an additional 30,000 square feet open area designated for parking and logistics operations. The facility is equipped with seven loading and unloading docks.

The warehouse section constitutes around 70% of the enclosed area. It is outfitted with a three-level high-capacity rack structure, fully powered pallet jacks, stackers, and forklifts.

### **Manufacturing Line**

BeddingUS's manufacturing line is an automated mattress assembly line that employs the most advanced technology in mattress manufacturing. The machinery and equipment were installed in 2022 and are all state-of-the-art.

#### Operation & Technology

All operations are managed through a Warehouse Management Software and industrialtype scanners, ensuring efficiency and accuracy in inventory management.

#### **Subcontractors**

BeddingUS also utilizes subcontractors for various processes, creating additional capacity when needed and improving efficiency for the production of specific products.

## **MAJOR COLLABORATIONS**

Long-Term Contract for mattress supply

to USA market and 3PL Logistics Services

BeddingUS works closely with leading foam, mattress, upholstery fabric, and innerspring manufacturers, allowing joint R&D, and material improvements.

Multiple Partnerships with major raw material suppliers

NAICS Code: 337910 CAGE Code: 9LZW8

DUNS Code: **DUNS10-249-4016** UEI Code: GFW1APSK8CS4 SIC Code: 57120102

# **PROCESS & EQUIPMENT**

# 1 Automated Gluing Station

The line features an automated bridge type hot melt station for the gluing process of the mattress layers. This process is computer-controlled, with adjustments automatically made according to mattress size and model.

# **Stitching Station**

The finished layers are transferred through an automated conveyor system to the next station. At the stitching station, a single operator is able to finish top and bottom tape edges with minimal effort.

# 3 Automated Packaging Station

The line has an automated packaging station that adjusts and wraps the finished mattress after it passes through the quality control station.

# 4 Pressing, Folding, and Roll Packing Stations

The final stage of the manufacturing line consists of pressing, folding, and roll packing stations. These machines are the most advanced available for producing 'mattress-in-a box' products. The pressing and rolling machine capacity allows for any type of mattress (either foam or hybrid with pocket springs, and up to 16" in height) to be roll packed into a box.

With this advanced machinery, BeddingUS is capable of designing and producing any type of 'Mattress in a Box' product currently on the market.

## **SUPPLIER BASE**

BeddingUS maintains a diverse supplier base from both the USA and abroad for all mattress raw materials. The collaboration with these suppliers provides competitive advantages and the ability to jointly develop and create unique materials and products for the market
